Dear Madam or Sir,

In March 2025, a dreamy little village in the Swiss Alps will once again become the stage for Challenge, the exclusive winter sports tournament between the two prestigious Swiss Federal Institutes of Technology EPF Lausanne and ETH Zurich. Since 1991, this annual friendly feud stands for fair competitions, uncountable memories, and lasting friendships across the Röstigraben. During four days, 50 challengers from each university face off in various ski- and snowboard races, cheered on by over 400 alumni, PhDs, professors, and sponsor representatives amidst a scenic Alpine panorama. Back from the slopes, Challenge offers an attractive and varied program with in-house après-ski, costume parties, and a networking aperitif. This makes Challenge a unique opportunity to build lasting connections with current and future engineers, scientists and employees from all disciplines in a relaxed and informal setting. Our organizing committee is already hard at work to make the next edition of Challenge possible.

We would thus gladly invite you to become a part of our story. We are delighted to present you with the Challenge 2025 Sponsorship Guide, which provides you with more information about the history, schedule, and sponsorship opportunities of Challenge. That being said, our heads of sponsoring are excited to learn what Challenge can offer YOU in particular and they are eager to create a customized package for our partnership.

We are looking forward to having your company by our side – on campus, on the slopes, and in our memories for years to come.

Thank you for your interest and consideration.

CAMPUS EVENTS

Challenge Races

The Challenge Races in Lausanne and Zurich are yearly traditions organized on both campuses where students compete in an obstacle race to win their spot at Challenge. More than 250 students participate in each race with over 300 spectators cheering them on. Located in the center of the respective campuses, this event arouses the curiosity of the people walking by, if they don't know it already.

What a great way to advertise your company!

Qualification Nights

The qualification nights, called «Anmeldefest» in Zurich and «Soirée de sélection» in Lausanne, are the events where most of the challengers qualify to participate in Challenge. These events usually attract around 500 students, who compete on stage in various fun games for the coveted chance to become a Challenger.
